Roll No:

MCA-INT (SEM I) THEORY EXAMINATION 2021-22 FUNDAMENTALS OF COMPUTER

Time: 3 Hours Total Marks: 70

Note: Attempt all Sections. If require any missing data; then choose suitably.

SECTION A

Attempt all questions in brief.

2*7 = 14

a.	Why computer is known as data processing system?
b	Name the few protocols used for email on the internet.
c.	Differentiate between LAN, WAN and MAN.
d	Why operating system is important for computer system?
e.	What is an IP address? Write down the different classes of IP Address.
•	How can you measure the quality of algorithm?
0	Define Mainframe computer? Give the name of any one mainframe computer.
₽.	

SECTION B

2. Attempt any three of the following:

7*3 = 2

	Αι	Couling and
~	i I	Draw a block diagram of basic components of a computer system. Explain each component of computer system.
	\square	component of computer system.
	b.	Define algorithm and its characteristics. Write algorithm to find out the factorial
		of a given number?
/		What is an Operating System? Explain all the types of operating systems.
_	C.	Explain different functions of each layer of the OSI model with the help of
	d.	Explain different functions of each layer of the obtaining
		diagram.
/	e.	Discuss the architecture and functioning of the internet.

SECTION C

3. Attempt any one part of the following:

7*1 = 7

a.	Explain different generations of computers.
b.	Write short notes on:
	(a) FTP
	(b) SMTP
	(c) TELNET
	b.

4. Attempt any one part of the following:

7*1 = 7

_	F.—	Explain different topologies in computer networks with the help of diagram.
	a.	Explain different topologies in comp
	b.	What is flow chart? Draw a flow chart for find out maximum no. among three
		numbers.

Roll Not

MCA-INT (SEM I) THEORY EXAMINATION 2021-22 FUNDAMENTALS OF COMPUTER

5.	Att	empt any <i>one</i> part of the following: $7*1 = 7$
	✓ a.	What do you mean by internet? Explain main characteristics and services of internet.
	b.	Define and differentiate between uniprogramming and multiprogramming system. What are their relative advantages and disadvantages?

6.	Attempt any one part of the following:	
		Explain the term Multimedia and different component of multimedia with the help of an example.
	b.	Write four differences between each of the following: (a) impact and nonimpact printers (b) volatile and non-volatile memory

7.	Αtt	empt any <i>one</i> part of the following: $7*1 = 7$
	a.	Write four differences between each of the following:
		(a) Router and Gateway
	-	(b) Packet Switching and Circuit Switching
	b.	What is Cache Memory? How it reduces the mismatch of processor and main
\sim		memory speed?
